- GitHub
- VS Code

ABOUT ME

Computer Science graduate with professional experience in game development, playable ads, and backend systems. Skilled in developing interactive applications and games using Unity and Phaser 3, with experience in gameplay programming, UI/UX implementation, and API integration. Experienced in backend development using MySQL, Docker, authentication, and data management. Familiar with AI-assisted development tools to streamline coding and improve development efficiency. Collaborative and adaptable, with experience working with cross-functional teams to deliver projects according to client requirements.

WORK EXPERIENCE

- MARCH 2026 - SEPT 2026
HPL Game Design
Game Developer
Developed and designed games and playable ads using Unity and Phaser 3. Leveraged AI-assisted development tools to streamline coding and improve development efficiency. Collaborated with cross-functional teams throughout development and deployment, ensuring games were completed and delivered according to client requirements.
- NOV 2023 - AUG 2026
MetaXSeed Games
Full stack Game Developer
Developed and designed games using Unity. Gained experience using C# programming, Unity library, Plastic SCM, and database integration using Google Firebase and Supabase. Integrated Google billing, Fixed Google App Policies and published games in Google Play Store managing the complete development and deployment process from start to finish.
- JUNE 2022 - AUGUST 2022
Melham Construction Corporation
Website Developer Intern
Worked as a Lead Intern Website Developer that developed and maintained the Company's Website that records all intern information.
